EDUCATION

Harbin Institute of Technology

08/2018 – 01/2021

Master in Computer Science, School of Computer Science and Technology

Henan University (Double First-Class)

08/2014 – 07/2018

B.Eng. in Network Engineering, School of Computer and Information Engineering, GPA: 3.69/4, Rank: 2/87

Recommended Postgraduate

EXPERIENCE

Tencent

Shenzhen

Research Engineer

01/2021 – Now

- Responsible for optimizing the short video recommendation model of QQ Kandian. Built a personalized recommendation service for QQ Kandian Friend Channel from 0 to 1, which significantly improved the user experience, increasing the viewing time of users by 25.46% and the interaction rate by 18.06%.
- Through optimizing the recommendation model on features and structures, which brought a 1.88% improvement in total user viewing time on QQ Small World. In particular, a list-wise-based model with multi-targets was successfully applied in rerank stage and an expert network with attention mechanism introduced into a MMOE model also improved the recommendation effect.
- Responsible for building e-commerce personalized recommendation service on QQ Small World, including recall stage, pre-rank stage and rank stage, which doubled the Click-through Rate(CTR) and the Gross Merchandise Volume(GMV) of business cards.

PUBLICATIONS

- Xian Li**, Xiaofei Yang, Xutao Li, Shijian Lu, Yunming Ye, Yifang Ban “GCDB-UNet: A Novel Robust Cloud Detection Approach for Remote Sensing Images,” in **Knowledge-Based Systems**, 2022, [PDF]

PATENT AND SOFTWARE COPYRIGHT

- Patent:** Remote sensing image cloud detection method, terminal and storage medium based on fully convolutional network. Application No. **CN202010440430.0** and Publication No. **CN111611932A**
- Software Copyright:** Satellite image cloud detection system software based on deep learning. Registration No. **2020SR0496351**

SELECTED AWARDS

- First Class Scholarship of Harbin Institute of Technology 2018
- Outstanding League member-Diligence and Truth-seeking Award of Harbin Institute of Technology 2019
- Second Class Scholarship of Harbin Institute of Technology 2019, 2020
- Second Prize for Technical Contribution of Big Data Research Center, Harbin Institute of Technology 2019
- National Encouragement Scholarship of Hennan University 2016, 2017
- National Second Prize of Lanqiao Cup (Programming Competition) 2017
- National Third Prize of MathorCup College Mathematical Modeling Challenge 2017
- Noational Second Prize of May Day Mathematical Contest in Modeling 2017
- Excellent Project of College Students' innovation and Entrepreneurship Competition 2017

SKILLS

- Programming Languages:** Python, Go, Java, C/C++
- Tools and Frameworks:** PyTorch, TensorFlow, Spark, Git, \LaTeX
- English:** CET-6(487) and CET-4(510)
